Step By Step Instructions

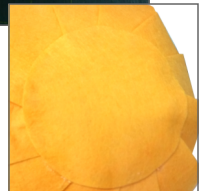

1. From 2 pieces of gold felt cut 5 strips 5cm wide.
2. From the third piece of gold felt cut a 10cm circle.
3. From green felt cut a 17cm circle. Cut a slit to the centre of the circle.
4. Cut the chenille stick in half.
5. From black felt cut 3 triangles (4cm on all sides) to form the eyes and nose. Cut a crooked toothy mouth about 8cm long or a happy, scary or sad mouth. What kind of pumpkin do you prefer?

6. Using staples attach the gold strips together by overlapping in a curve until you end up joining both ends to make a circle.
7. Repeat this step at the other end which will give you your pumpkin.
8. Select your bottom end and hot glue the gold base to cover the open end.

9. Take the green circle and where the slit ends hot glue 3cm of both ends of your chenille stick to what will be the inside (each end on opposite sides).

10. Now overlap the slit ends to form a cone with your chenille stick poking out the top as a hanger. Hot glue your slit ends into place.
11. Hot glue the green pumpkin top to your pumpkin.

12. Choose the front of your pumpkin and attach your black felt face pieces to create the scary pumpkin you desire.
